Subject: lack of swimming pool in Wood Green

I would like to complain about the worrying lack of swimming pools in the borough of Haringey and indeed the lack of any clear plans to build one in the coming year. Given the alarming increase in obesity among children and adults alike within the Borough I would have hoped this would have been an absolute priority within the Borough. I swim at Park Road pool which is frequently overcrowded defeating the object of swimming in the first place.

I would welcome your response and more importantly your plans to address this worrying issue.

Many thanks.

Anne Green
