Planning Application Requirements Checklist

This Checklist sets out the information you need to submit with your application for it to be accepted as valid and processed as quickly as possible. It lists the statutory National Planning Application Requirements which must accompany all applications. It may also include additional Local Planning Application information which the Council requires for this type of application.

Local Planning Application information may only need to be submitted in particular circumstances so please ensure you read the checklist carefully and supply all the information required for your type of proposal. If you do not supply all the information the Council needs your application is likely to be declared invalid on receipt and will not be accepted. This will delay your application because we will not be able to deal with it until the missing information is provided.

You can use the tick boxes on the checklist to confirm the information you are providing with your application.

National Planning Application Requirements

- The completed Ownership Certificate (A, B, C or D – as applicable) as required by Article 7 of the Town and Country Planning (General Development Procedure) Order 1995

- 1. Photographs & Photomontages

When are these required?

These provide useful background information that can help to show how developments can be satisfactorily integrated within the context of the streetscene or an existing development. Photographs should particularly be provided for larger developments of 10

or more units or 1,000m² or more floorspace or if the proposal involves the demolition of an existing building or is a development affecting a conservation area or a listed building.

Explanatory note on Supplementary Planning Guidance

This guidance document makes reference to Supplementary Planning Guidance (SPG).

The UDP sets out the policies for specific areas and core planning policies on topics for the whole borough. Much of the detail to support the UDP policies will be contained in accompanying documents called Supplementary Planning Guidance (SPG).

Supplementary Planning Guidance (SPG) is a material consideration for development control purposes and can take the form of design guides, area development briefs or supplement other specific policies in the UDP.

As of January 2008 five SPG have been adopted to bring them in line with the adopted UDP policies, the UDP Inspector's recommendations and changes to government legislation. The remaining SPG are still draft and will continue to be used for development control purposes. In addition, two codes of practice on employment and training and health planning obligations have been prepared and adopted. The two Code of Practice Notes will assist in development control negotiations on planning obligations and relate to employment and health impacts of development proposals.

The SPG and Codes of Practice Notes adopted in 2006 are:

- SPG1a Design Guidance
- SPG3a Density, Dwelling Mix, Floorspace Minima, Conversions, Extensions and Lifetime Homes
- SPG8a Waste and Recycling
- SPG10a The Negotiation, Management and Monitoring of Planning Obligations
- SPG10b Affordable Housing
- Planning Obligation Code of Practice No 1: Employment and Training
- Planning Obligation Code of Practice No 2: Health

As Supplementary Planning Documents are introduced it may be necessary to review and amend the Local Information Requirements accordingly, any changes that are made will be publicised.
