Subject: Haringey Local plan and AAP

Dear Sirs,

I write as regards the proposal above.

In my view the entire scheme needs alot more thought. Haringey is in debt and needs homes that is clear. However if we not to avert a major disaster in the near future we need to think very carefully now.

I do not agree with handing over so much power and public assets to the private sector.

I particular I am appalled that you could even consider the removal of Caxton road and part of Maze road in order to replace it with the proposal you currently have. To demolish peoples homes simply to replace them with a public precinct of poor architectural quality is abhorrent. We need more of the humanely proportioned Victorian stuff and less of the concrete/ glass modern stuff. Why cannot the houses in question form part of and contribute to the proposals in hand?
