Subject: Response to Wood Green AAP

Dear Sir/Madam

While reading with interest the proposed plans for Wood Green I was disappointed that there is a proposal to make Moselle Avenue an "east west route".

As a Moselle Avenue resident and supporter of the Noel Park conservation area, I would question why there is a need for any further transport routes through Noel Park.

Noel Park should be treated as any other residential estate with traffic flow designed, as it is presently, to go around the conservation area rather than through it.

I hope this part of the proposal will be reconsidered as I believe it inappropriate to have such a route through a conservation area.

Yours sincerely
Brigid McKeivith
