9 1.1 Introduction	3/1.1.5	The Core Strategy Local Plan: Strategic Policies is the primary and strategic Development Plan Document (DPD) and is at the Heart of Haringey's Local Development Framework (LDF) Local Plan (Figure 1.1).		Grey	
10 1.1 Introduction	3/1.1.6	The Core Strategy Local Plan: Strategic Policies guides the content of the other Local Development Documents (including Area Action Plans and Supplementary Planning Documents). Alongside the Core-Strategy Local Plan: Strategic Policies, the Council is also producing other Development Local Plan Documents: a North London Waste Plan, Area Action Plans for Wood Green, Tottenham High Road Corridor, Seven Sisters, Northumberland Park and Tottenham Hale.		Grey	
11 1.1 Introduction	3/1.1.6	The work programme of the LDF Local Plan is set out in a Local Development Scheme 2007 (LDS).		Grey	T
12 1.1 Introduction	3/1.1.6	The LDF Local Plan will eventually replace Haringey's Unitary Development Plan (UDP) 2006 which sets out our current planning policies.		Grey	I
13 1.1 Introduction	3/1.1.7	Haringey's Core Strategy Local Plan: Strategic Policies is the key Development Plan Document.		Grey	I
14 1.1 Introduction	3/1.1.7	Together with the London Plan_and Haringey's emerging Development Management Policies and Neighbourhood Plan(s), these three_documents make up the statutory 'development plan' for Haringey.		Grey	
15 1.1 Introduction	3/1.1.8	Planning applications must be determined in accordance with the development plan unless material considerations indicate otherwise (Planning and Compulsory Purchase Act 2004, Section 28 (6)). (Localism Act 2011).		Grey

20 1.1 Introduction	4/1.1.11	The preparation of Haringey's Core-Strategy: Local Plan Strategic Policies involved two main stages of public involvement and consultation.		Grey	
21 1.1 Introduction	4/1.1.11	The results of this consultation helped to inform the development of the Core Strategy: Local Plan Strategic Policies Preferred Options.		Grey	
22 1.1 Introduction	4/1.1.12	Involvement of key stakeholders, for example infrastructure providers and neighbouring boroughs, took place throughout the preparation of the Core Strategy Local Plan: Strategic Policies.	<u> </u>	Grey	4
23 1.1 Introduction	4/1.1.12	The comments and input received from the consultations were taken into consideration in the drafting of this version of the Gore Strategy Local Plan: Strategic Policies.	<u> </u>	Grey	4
24 1.1 Introduction	5/1.1.13	The Core Strategy Local Plan: Strategic Policies is a key strategic document for Haringey and will have a major effect on the future development of the borough.		Grey	4
25 1.1 Introduction	5/1.1.13	The Council has commissioned and collected a wide range of studies and information to inform the preparation of the Core Strategy Local Plan: Strategic Policies (also known as 'evidence base').	⊢—	Grey	4
26 1.1 Introduction	5/1.1.14	The Core Strategy Local Plan: Strategic Policies needs to take into account other plans and strategies that influence the borough. In accordance with PPS12 'Local Spatial Planning' the Core Strategy the NPPF the Local Plan: Strategic Policies should be in alignment with the priorities identified in the sustainable community strategy.		Grey	
27 1.1 Introduction	5/1.1.15	The Core Strategy Local Plan Strategic Policies will seek to contribute to achieving the vision in Haringey's Sustainable Community Strategy which is 'a place for diverse communities that people are proud to belong to'.		Grey

1.4 Challenges facing Haringey	39/1.4.1	In developing a strategy to guide change and development up to 2026, there are a number of social, environmental and economic challenges that the Council needs to respond to. These challenges are cross cutting issues which shape Haringey's Local Plan: Strategic Policies a Core Strategy. The key challenges are as follows:		Grey

Haringey		"The level of car ownership and car use continues to rise. Traffic volume on Haringey roads has reduced since 2001 and there is evidence that car ownership has also stabilised in recent years. However,			
		there are congestion hotspots including in town centres and on the strategic road network, which places increasing pressure on the borough's roads and on parking. Travel patterns are becoming more			
		complex, particularly at peak times with commuting and the "school run". The borough is relatively well served by north-south routes, but movement east-west, particularly by public transport, is often difficult.			
57		Increasing High levels of car use and road congestion can harm local air quality, and in turn affect the health of residents."

			Presumption in Favour of Sustainable Development			
			When considering development proposals the Council will take a positive approach that reflects the presumption in favour of sustainable development contained in the National Planning Policy Framework (NPPF). The Council will always work proactively with applicants to find solutions, which mean that proposals can be approved wherever possible and to secure development that improves the economic social and environmental conditions in Haringey. Planning applications that accord with the policies in Haringey's Local Plan (and, where relevant,			
			with policies in neighbourhood plans) will be approved without delay, unless material considerations indicate otherwise.			
			Where there are no policies relevant to the application or relevant policies are out of date at the time of making the decision, then the Council will grant permission unless material considerations indicate otherwise – taking into account whether:			
			Any adverse impacts of granting permission would significantly and demonstrably outweigh the benefits, when assessed against the policies of the NPPF taken as a whole; or

The lack of family housing in Haringey has resulted in a significant issue of overcrowding. The demand for family housing and characteristics of overcrowding differ by tenure and ethnic origin, with some groups seven times more likely to be living in overcrowded housing than white British households (North London SHMA 2010). Low to median income households with large families are also likely to be more affected by overcrowding due to the lack of choice of available affordable family homes. Responding to these issues is a priority of the Council. The dominant source of NO2 and PM10 emissions in Haringey is road transport with a variety of other sources contributing emissions. This has implications for air quality which is being addressed through the measures outlined in the Council's Air Quality Action Plan. Haringey is already taking action to reduce existing pollution and to prevent new pollution. For example, monitoring has identified hotspots of poor air quality in the borough. As part of the requirements to control and reduce potential or actual pollution resulting from development in the borough, developers will be required to carry out relevant assessment and set out mitigating measures in line with the national guidance. Further detail on the Council's approach to environmental protection is set out in the Development Management DPD and the Sustainable Design and Construction SPD."	22/13/3.1 This comment does supersede the minor changes made as a result of comments 4/41/4.4 and 26/40/4.4. The schedule sets out who is responsible for delivery, funding and timescales, where these are known. It also includes a contingency plan where possible, should the amount of growth and locations in the borough vary, or if funding is not secured. The schedule also indicates how the identified infrastructure is linked to strategic policies.	No	Green and orange	
	While the schedule is detailed, it is not exhaustive of all infrastructure likely to be needed in the borough in the plan period. Other items may be required, as appropriate, in response to new development in the borough or new emerging issues. In many cases, the confirmation of funding for infrastructure is limited to the short term, however, it is still necessary to include details of medium to long term infrastructure priorities even where funding has not yet been confirmed. To ensure that funding arrangements are fully identified and the proposed infrastructure to support growth is implemented in a timely fashion, the Council has identified a network of service providers to meet regularly to monitor the progress and keep under review the infrastructure needs and delivery of identified projects.  This project list will be reviewed regularly to ensure infrastructure delivery meets Core Strategy growth requirements and to accommodate any changes to the national and regional framework."
