

LISTING MARCH 2006

1 INTRODUCTION

1.1 COMMISSION

Jonathan A Law & Associates was commissioned to carry out an audit of the borough's historic street furniture by the Environmental Services Department of Haringey council, on 25 October 2005.

The survey was carried out between November 2005 and February 2006.

The survey was limited to visual inspection from accessible public spaces.

1.2 THE REPORT

The study included the identification and inspection of each item to provide a written and photographic record of its description and location, together with an assessment of its condition, and of the cost of urgent and full repairs.

The final report comprises the following elements, both in electronic and hard copy format:

- 1. Listing and photographic record (this document)
- 2. Spreadsheet record with repair costs

1.3 THE LISTING

Due to the nature of the exercise, the published Listing includes elements which are privately owned as well as council-owned items. Significant privately owned features include the Post Office pillar boxes and Telephone kiosks, both mounted within public spaces. Other minor features have been included which are clearly in private ownership, but considered to make a significant contribution to the public realm.

The Listing should be considered as a working draft. The maintenance of the electronic format allows for the addition of further historic features as they are brought to the council's attention.

	•
Description	Ladies and disabled toilets housed in gable-ended, clay-tiled, mock timber- framed 'lodge' structure on glazed brick base. Base extending to basement with curved flight of external steps serving gentlemen's toilets. Frontage, paths and steps linked by painted wrought iron railings. Nice roof vent cupola detail. Several fading signs referring to recent history of council funding politics.
Inscription	Various attached signs.
Setting	Important site between parade of shops and railway, close to High Road retail centre.
