Hello Corrupt Haringey Council

I am sending you this email expressing my views and opinions to the transformation of Wood Green.

I do not believe that everybody will benefit from the development of Wood Green. The poorest will still suffer because of your corrupt dealings.

I read that the new developments will produce jobs. I can say that as a active job seeker I will not get a job this is because of public who gets away with things by talking to anyone and also because of corrupt haringey council/councillors.

I can say that the wealthy will benefit from the Wood Green development (which I find disgusting).
