Subject: Wood Green action plan

Dear sir/madam,

With regards to the proposed action plan to develop wood Green I wish to raise my concerns as to how this will affect Wightman road, which is currently traffic heavy. I see Arctic trucks and heavy vehicles use Wightman Rd, which is not designed for such traffic - an issue evident in cracking and failing walls along Wightman road. The pavements are cluttered with park cars bins and rubbish.the road is dirty, as is the air. Wightman road needs cleaning-up! It requires the councils consideration. The residents have raised concerns previously over traffic. Clean up Wightman road of traffic and declutter it's pavements please.

Regards,

Dr Tim Ireland
