Hi All

I am unhappy about the proposed development plan.

I do not think that enough time and consideration has been given to the residents that already live here.

This will have a major impact on our lives.

Five generations of my family have lived in Haringey.

I was baptised in Wood Green and went to school here.

I do a humble job that can be quiet stressful and coming home to more stress of not knowing what will become of my home is not good for my already high blood pressure and diabetes.

We have been given no guarantees on anything.Right of return? Same tenancy rights ?

Why not build on sites were no one is living at present?

Kind regards

Yvonne Brogan
