**Subject:** Mindless destruction of good peoples homes

To whom it may concern.

I am writing as I am simply appalled by the idea that Haringey council could deem it a logical idea to bulldoze homes on the Caxton Road and surrounding streets.  
Having watched the video

<https://vimeo.com/214522835>

Which I suggest you do if you have not done so far. It actually goes beyond just not being logical but also inhumane.

My friends moved into their home only last year and this was supposed to be their final move into the house of their dreams.

I care very deeply for them and their beautiful children and having only just relocated myself I know the hard ship, stress and unsettling this causes, to me as an adult but in particular to the children. I couldn't even begin to imagine how they must be feeling knowing that what they thought was their home is now possibly only a temporary measure.

I also observed that this is a real possibility for other people in the community some as old as 91 who have lived in their homes since the 60's!

I sincerely hope you and the other members of the council will decide on an alternative solution and soon, so that everyone on these streets and in these homes can go back to feeling secure and enjoy the remainder of their lives in relative peace.

Kindest regards  
Zoe Hart
